

Bogotá D.C., April 07th, 2016

To whom concerns:

By the present, I recommend widely at Mr. Danny Rutar from REDBACK 3D, for, so he is an honest, responsible and hardworking person, ready to realize any work entrusted.

I knew Danny Rutar for the past two years when he came to the Sports Science Center to support us with a presentation about "Biomechanics Technology - Injury Management" as part of the guidelines of biomechanics in sport's (module I) event and he showed us his work as part of REDBACK 3D team. He also made a service agreement proposal to COLDEPORTES in order to work as partners with REDBACK 3D. I can assure that he is a model worker, good co-worker and a specialist in his area.

I recommend him to you and your work team without any reservation. If you have any questions, please do not hesitate to contact me.

Sincerely yours,

Juan Carlos Quiceno Noguera
(Juancq2000@hotmail.com, Jquiceno@coldeportes.gov.co)
Sports Science Center Director
Coldeportes- Colombia.
