

To whom it may concern,

This is to state that our research group has experienced tremendous support from Redback Biotek regarding the installation and operation of our MAX-II Metabolic System (AEI Technologies). We are very content with the service from Redback Biotek, that is characterized, but not limited by quick replies to our questions, extensive mail- and skype contact in order to (successfully) solve the difficulties during installation and operation, and a strong interest in the customer (follow-up mails or even calls).

Yours sincerely,

Arie Nieuwenhuizen, PhD
Assistant Professor

Animal Sciences
Group
