To whom it may concern

Danny Rutar of Redback Biotek has been responsible for the installation, servicing and maintenance of our Moxus Metabolic systems (AEI Technologies) since 2010.

During this time, I have found Danny has always provided a high quality and timely service. He has responded swiftly to resolve issues, has provided quick and thorough responses to any queries that we may have and has been extremely generous with his time, knowledge and expertise.

I am very content with the support offered by Danny and have no hesitation in recommending his service, business and expertise.

Kind regards

A handwritten signature in black ink that reads 'Toni Rossiter'. The signature is written in a cursive style and is underlined with a single horizontal line.
